FOR MYSORE STATE

Revenue Department

Subject

IRRIGATION - Minor - (Bellary) - Kudligi Taluk - Halasagar village Rayapuram tank - Fixation of classification - Orders solicited.

Reference F.1560 / 50-1.

Station: Madras. Dated the 15th April 50.

From

Sri N.C. Thomas, B.A., Joint Secretary,
Board of Revenue.

Sri W.R.S. Sattianathan, I.C.S., Commissioner
of Land Revenue.

*****

Read: From the Collector, Bellary Rc.3179/49.A.2 dated 10-3-50.

In G.O.401, P.W.D. dated 4-3-43, the Government sanctioned the restoration of Rayapuram tank in Halasagar village of Kudligi taluk of this district at a cost of Rs.72,000/- under the G.M.F. Scheme. The work was executed by the P.W.D. and it has been completed. The question of transferring the lands that are to be benefitted by the tank from dry to wet is now under consideration. As the rate of wet assessment on the lands to be brought under cultivation depends upon the classification of the source, it has to be fixed now.

2. The Executive Engineer, Bellary has reported thatthe capacity of the tank is 45 M.C. Ft. which is sufficient for an ayacut of 220 acres and that if normal supply is received there will be six months supply for the ayacut. In this connection kind attention is invited to Board's Proceedings No.8 dated 27-1-23 (Land Revenue and Settlement) containing the Re-settlement scheme report of the red soil taluks of Bellary and Anantapur districts published in the Bellary District Gazette for November 1923. According to this rainfed tanks with capacities of more than five but less than 8 months were placed in the 3rd class and tanks with capacities of more than 3 months, and upto five months were placed in the fourth clas Since Rayapuram tank is a rainfed tank, with a capacity of six months and as similar tanks in the district are classified as 3rd class non-precariou sources, I suggest that it may be classified as a third class non-precarious source. Under Appendix I to B.S.O.4 this tank will be classified as I class for purpose of charging water rate.

REFERENCE:

Submitted to Government.

2. The Board recommends the Collector's proposal for classifying Rayapuram Tank as a third class non-precarious source of irrigation. But for purposes of charging water rate this tank will b classified as I Class source under Appendix I to Board Standing Order

for Joint Secretary.

Irrigation – Minor – (Bellary) – Kudligi Taluk – Halasagar village – Rayapuram tank – Fixation of classification – Proposals

From the Board of Revenue Ag F. 1560/50 – dated 15/4/50

To A.S.

Please see the Board's ref in the c

2) For the reasons stated by him in para 2 of his letter on p. 1 Cf, the Collector of Bell proposes that the Rayapuram tank in Halasaga village Kudligi Taluk, Bellary Dt newly restored under the G.M.F scheme may be classified as a third class non-precarious source of irrigation. The Board recommend the Collector's proposal. The Board's recommendation may be accepted. The source will then be treated as first class under Section A Appendix I to B.S.O.4. for purpo of levying water cess.

3. The Board has not reported the fasli from which the classification of the source is to take effect. The Board may be asked to report on this point and also to submit for publication in the Bellary District Gazette, a draft notifica under the provisions of in para 9 (b) of Resettlement notification approved in Go. No. 373 Rev dated 6.3.1925. – please (F) See the precedent in Go. Ms. No. 1021 Rev. dt. 18-5-

4. A draft order is submitted approval. It may be sent to P.W.D
